- I attained a B after the whole 8 year in primary school to proceed to a Kenyan high school.

MY PROFILE

Hello World...

A'm James a full stack dev and a tech enthusiastic freelancer based around Nairobi, Kenya.

I have a strong foundation in web design frontend with well known framework like the React JS from meta. I deal with both SQL and NoSQL databases at the backend side for data storage.

At the server side i work well with REST Api's. For a full stack development i use MERN stack for a greate application.

I look forward to working with you....

MY SKILLS

- Front-End web dev and Design
- REST Api development .
- Basic Python dev
- MERN stack dev.
- OS installation
